Prof. Suwen Li
Huaibei Normal University
China

Dear Prof. Li

It is my great pleasure to invite you to participate in the China-Korea Environment Workshop. It will be Seoul, Korea on 11-14 August, 2019. We plan to discuss research on air pollution and other environmental issues. During your stay here in Seoul, we will discuss several issues and outcomes from our project, which has been performed over the past five years. Our science goal aims at understanding the regional air quality changes driven by anthropogenic activities, which cause changes in emissions of ozone and aerosol precursors in East Asia. As lead of the Korean SLCP group, I am very much looking forward to discussing with you about the continued collaboration.

Please let me know if there is anything that I can further provide for your travel to South Korea. I look forward to seeing you in Seoul.

With best regards,

Rokjin Park
Lead, the Korean SLCP project
